

Affidavit Concerning Mattanaw's Abstinence From Sex, Drugs and Alcohol

The purpose of this affidavit is to provide accurate testimony regarding the ethical uprightness and morality of my regular behavior, for any legal purpose for which it may become suitable at a future time, and also, to have additional evidence regarding the writing contained in Mattanaw's Living Autobiography, where the nature of his behaviors and history are discussed.

Being first duly sworn, Mattanaw, legally "Mattanaw Mattanaw", under oath states:

1. **I do not consume alcohol at any time.** I am totally teetotal regarding alcohol. I do not drink or utilize alcohol of any kind. I never have alcohol on my possession, and I never buy it from any person or establishment.
2. **I do not do drugs of any kind.** I do not use any over the counter medication, drugs prescribed by doctors, drugs from any illicit source, or any drug whatsoever. I never have drugs in my possession, never exchange items with others, never carry items from others, and never ask for, buy, or solicit for purchase, any drug from anyone whatsoever. I have never, and will never, be involved in any sale of drugs, possession of drugs, &c... anything involving drugs.
3. **I am clean at all times while driving.** When driving, boating, cycling, or operating machinery, it is impossible that I can be under the influence of any substance.
4. **There is never any time I have a social interaction in which I'm not clean.** There can be no kind of social conflict of any kind that could result from any influence of any substance, unless the other person or people are under the influence of a substance.
5. **I only consume water and plants, and only infrequently, dairy products.** I have an entirely vegan and vegetarian lifestyle and only consume plants and water, and occasionally dairy products. I have been a vegetarian for 26 years, vegan/vegetarian for 25 years.
6. **I only ingest non-drug substances.** By one through three it should be understood that I only consume the set of ingredients that are water, are plant-based foods, or are dairy foods. All else is excluded from this list. This means nothing else is ingested. This means

no alcohol, drugs of any kind, including any not mentioned, are not consumed, not at any time.

7. **I do not put anything that is not food or water into my mouth at any time, except mint chewing gum, occasionally.** I am a purist regarding what I ingest and what I breath, and will not put anything into my mouth that is not food, water, or occasionally chewing gum.
8. **I do not “inhale” anything other than air/oxygen, and would refuse to inhale anything else.** If anything is in my environment is perceived to be chemical, I exit that environment. I do not smoke, vape, or inhale any substance at any time and would fight/work to avoid inhaling anything else.
9. **I do not engage in sexual activity of any kind.** I was married and in a monogamous relationship for 19 years before being divorced. After divorce, I decided that my first marriage was all I was needing regarding sexual relations with anyone else. I do not have a girlfriend, remain a formerly married but unmarried man, and am never seeking any romantic relationship. I do not and have never used a dating app, a social app for interacting with women, or any app designed for having sexual relationships or finding new romantic relationships.
10. **I do not seek out any dating.** I do not meet with women outside anything necessary or professional and have no sexual friendships from the opposite sex, or anything that could be construed as leading to a sexual relationship from anyone of the opposite sex.
11. **I am heterosexual only.** I am not a homosexual. I am not attracted towards males at all, have never been attracted to a male, and never had any sexual contact with males. While psychologically and physically attracted to females, I do not engage them for any relevantly related relationships.
12. **I do not watch any pornography.** I do not view any kind of graphic content involving sexual activities of any kind, and never see any images or videos of anyone nude.
13. **I am fully functioning sexually,** am healthy, and have a very good anatomy, but do not engage in any sexual behavior whatsoever, because my former marital relationship was satisfying enough, and I am not wanting to risk dating due to the cheating behavior of others, chances of getting a sexually transmitted disease, or having an untimely or unplanned child. However, I am a normally functioning heterosexual man.
